CED MISSION

The Council for Entrepreneurial Development (CED) was founded in 1984 to identify, enable and promote high-growth, high-impact companies and accelerate the entrepreneurial culture of the Research Triangle and North Carolina. In July 2005, Wilmington's Coastal Entrepreneurial Council merged with CED to create CED-Coastal, a divisional office focused on entrepreneurial development in Wilmington and throughout North Carolina's entire coastal region. Having celebrated its 20th anniversary in 2004, CED achieves its mission by providing entrepreneurs with the knowledge, networks and skills that ensure their success, and at the same time heightens awareness of the contribution that entrepreneurial companies make to our communities and our economy. With more than 4,000 active members representing over 1,100 companies, CED is the largest entrepreneurial support organization of its kind in the United States.
