

WE BUILD GREAT SOFTWARE

Dualboot is a business and software development company. We build great software, but we base our success on whether it helps your business grow.

Our Product Directors have between 10-25 years of experience bringing products to market.

New Product Launch

Looking for a team that can design and launch a new product in 4-6 months?

DevOps

Does your existing team need training on how to build and scale a commercial product?

Design

Looking for an experienced designer to help you get a complex product to market?

Re-Platform

Do you need to re-architect or re-platform a legacy product without disruption?

Tech Assessments

Are you acquiring or investing in a tech company? Need a tech audit you can trust?

Staff Acceleration

Need to augment your tech team with key role partners to accelerate your growth?

WHAT WE DO

QA Automation

Do you have a person or system in place to explore, test, and report on your product?

Rescue Mission

Do you need to stabilize and enhance your current product?

HOW WE DO IT
