# ABOUT VENTURE CONNECT

---

Venture Connect 2022 is a conference that gathers together innovative companies from the Technology and Life Science communities, as well as top investors from across the U.S. This powerhouse event is clear evidence of how strong our Tech and Life Science ecosystems really are.

It all began over 37 years ago, and CED continues to create connections that make a difference. We hope you will join in supporting entrepreneurs and seasoned experts as they come alongside investors and stakeholders in April for unrivaled content and connections at Venture Connect 2022.

CED recognizes its community partners that come together in support of the entrepreneurial ecosystem to ensure that they receive the resources they need to thrive.

## WHAT IS CED?

---

The Council for Entrepreneurial Development was formed in 1984 by a group of business leaders wanting to empower the successful creation and growth of entrepreneurial companies in the North Carolina region. CED acts as the connective center for all of this to happen.

Through high-touch support, education, access to capital, and crucial connections, we bring entrepreneurs together with the optimal resources needed to turn a new company into a success story. Programs like Connect to Capital have enabled entrepreneurs to connect with potential investors via formal introductions—with more than 600 made since 2014.
